#### IMPORTANT SAFETY INSTRUCTIONS

Read these operating instructions carefully before using this unit. Follow the safety instructions on the unit and the applicable safety instructions listed below. Keep these operating instructions handy for future reference.  
1 Do not use this apparatus near water.  
2 Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.  
3 Unplug this apparatus during lightning storms or when unused for long periods of time.  
4 Do not attempt to service, repair or adjust any part of the apparatus when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.  
5 Clean only with dry cloth.

#### Safety precautions

**THE FOLLOWING APPLIES ONLY IN THE U.S.A. AND CANADA.**  
This device complies with Part 15 of FCC Rules and Innovation, Science and Economic Development Canada's Interference-Restricted (IR) radio equipment class applicable to the following two conditions:  
(1) This device may not cause interference, and  
(2) this device must accept any interference, including interference that may cause undesired operation.

**EAH-AZ60**  
FCC ID: ACJ-EAH-AZ60  
Model: EAH-AZ60  
IC: 216A-EAH-AZ60

**EAH-AZ40**  
FCC ID: ACJ-EAH-AZ40  
Model: EAH-AZ40  
IC: 216A-EAH-AZ40

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC exposure Guidelines as this equipment has very low levels of RF energy.

**For the U.S.A. only**  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC exposure Guidelines as this equipment has very low levels of RF energy.  
**(For Canada only)**  
EAH-AZ60 and EAH-AZ40 have been tested and found to comply with ISCED radiation exposure limits set forth in an uncontrolled environment and meet RSS-102 of the ISCED radio frequency (RF) Exposure rules.

**THE FOLLOWING APPLIES ONLY IN THE U.S.A.**  
FCC Note:  
This equipment has been tested to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment neither radiates nor receives radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. This equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. It is encouraged to try to correct the interference by one or more of the following measures:  
• Reorient or relocate the receiving antenna.  
• Increase the separation between the equipment and receiver.  
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
• Consult the dealer or an experienced radio/TV technician for help.

#### Unit

**WARNING:**  
To reduce the risk of fire, electric shock or product damage,  
• Do not expose this unit to rain, moisture, dripping or splashing.  
• Use only manufacturer's recommended accessories.  
• Do not use this apparatus near water.  
• Do not repair this unit by yourself. Refer servicing to qualified service personnel.  
• Avoid the use in the following conditions:  
• High or low extreme temperatures during use, storage or transportation.  
• Deposit of battery acid or other acid, or mechanically causing or dropping liquid, such devices as a clock may not operate normally.  
• Extremely high temperature and/or extremely low air pressure that can result in an explosion or the leakage of flammable liquid or gas.  
• Do not place this unit near a heat source.  
• Do not listen with this unit at high volume in places where you need to hear sounds from the surrounding environment for safety, such as at railroad crossings, and construction sites.  
• Keep this unit away from anything that might catch fire. Such devices as a clock may not operate correctly.  
• Be aware that this unit (earphones) may get warm while charging or immediately after charging. Depending on your constitution and health status, putting the earphones on may trigger adverse reactions such as skin redness, itching, and rash if the earphones have just been taken out of the charging cradle and are still warm.

**Built-in battery**  
• Do not heat or expose to flame.  
• Do not leave the unit in a car exposed to direct sunlight for a long period of time with doors and windows closed.

**Earphones/Earpieces**  
• Keep the earphones and the earpieces out of reach of children and pets to prevent swallowing. After use, put them in the charging cradle and close the lid for storage.  
• Securely attach the earpieces. If they are left in the ears after coming off, injury or sickness may be caused.

**Allergies**  
• Discontinue use if you experience discomfort with the earphones or any other parts that directly contact your skin.  
• Continued use may cause rashes or other allergic reactions.  
**Precautions for listening with the Earphones**  
• Excessive sound pressure from earphones and headphones can cause hearing loss.  
• Do not use your earphones at a high volume. Hearing experts advise against continuous extended play.  
• If you experience a ringing in your ears, reduce volume or discontinue use.  
• Do not use while operating a motorized vehicle. It may create a traffic hazard and is illegal in many areas.  
• You should use extreme caution or temporarily discontinue use in potentially hazardous situations.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC exposure Guidelines as this equipment has very low levels of RF energy.

**For the U.S.A. only**  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC exposure Guidelines as this equipment has very low levels of RF energy.  
**(For Canada only)**  
EAH-AZ60 and EAH-AZ40 have been tested and found to comply with ISCED radiation exposure limits set forth in an uncontrolled environment and meet RSS-102 of the ISCED radio frequency (RF) Exposure rules.

**THE FOLLOWING APPLIES ONLY IN THE U.S.A. AND CANADA.**  
This device complies with Part 15 of FCC Rules and Innovation, Science and Economic Development Canada's Interference-Restricted (IR) radio equipment class applicable to the following two conditions:  
(1) This device may not cause interference, and  
(2) this device must accept any interference, including interference that may cause undesired operation.

**EAH-AZ60**  
FCC ID: ACJ-EAH-AZ60  
Model: EAH-AZ60  
IC: 216A-EAH-AZ60

**EAH-AZ40**  
FCC ID: ACJ-EAH-AZ40  
Model: EAH-AZ40  
IC: 216A-EAH-AZ40

#### English

## Part names

- Main unit (earphones)**
- 1 Touch sensor (L) (left)
- 2 Touch sensor (R) (right)
- 3 Earpieces
- 4 Raised dot indicating the L side
- 5 Charging terminals
- 6 Earphone LEDs

- Flashing red:**  
The charge in the battery is running low. You should charge the unit.

- Main unit (charging cradle)**
- 7 Certification information label
- 8 Terminal section
- 9 Charging terminal
- 10 Charging cradle LED

Behavior when charging with the USB charging cord with the earphones stored in the charging cradle

Charging cradle	LED	Light	Charging status
Cyan*	Open		Charging the earphones
Lights off			Earphones and charging cradle's batteries are full.
Green	Close		Charging the charging cradle. There is plenty of charge in the battery.
Yellow	Open		
Red			The charge in the battery is running low.

\* Blinking

## Nom des pièces

- Appareil principal (écouteurs)**
- 1 Capteur tactile (L) (gauche)
- 2 Capteur tactile (R) (droit)
- 3 Oreillettes
- 4 Point surélevé indiquant le côté L (gauche)
- 5 Bornes de charge
- 6 DEL d'écouteur
- **Cignotement rouge** :  
La charge de la batterie diminue. Il est nécessaire de charger l'appareil.

- Appareil principal (boîtier de charge)**
- 7 Étiquette des informations d'authentification
- 8 Bornes
- 9 Prise de charge
- 10 DEL du boîtier de charge

Boîtier de charge		État de charge
Voyant à DEL	Couvercle	
Cyan*	Ouvert	Charge des écouteurs
Eteint		Les batteries des écouteurs et du boîtier de charge sont chargées.
Vert	Fermé	Charge du boîtier de charge. La batterie est complètement chargée.
Jaune	Ouvert	
Rouge		La charge de la batterie diminue.

\*Cignotement

## Nombres de las partes

- Unidad principal (auriculares)**
- 1 Sensor táctil (L) (izquierda)
- 2 Sensor táctil (R) (derecha)
- 3 Auriculares
- 4 Punto elevado que indica el lado L
- 5 Terminales de carga
- 6 LEDs de los auriculares
- **Parpadeando en rojo:**  
La carga de la batería se está agotando. Debería cargar el aparato.

- Unidad principal (soporte cargador)**
- 7 Etiqueta de información de certificación
- 8 Sección de terminales
- 9 Terminal de carga
- 10 LED del soporte cargador

Soporte cargador		Estado de carga
LED	Tapa	
Cian*	Abierta	Cargando los auriculares
Luces apagadas		Las baterías de los auriculares y el soporte cargador están cargados.
Verde	Cerrada	Cargando el soporte cargador. Hay mucha carga en la batería.
Amarillo	Abierta	
Rojo		La carga de la batería se está agotando.

\*Parpadeando

## 1 Charging

The rechargeable battery (installed in the unit) is not charged initially. Charge the battery before using the unit.

- Proper charging is not possible if there is dust or droplets of water on the charging terminal and the terminal sections of the earphones or charging cradle. Remove the dust or water droplets before charging.

- Use the **USB charging cord (supplied)** (a) to connect the charging cradle to a **5.0 V power source (500 mA or higher)** (b).
  - The charging cradle LED lights (green, yellow or red) while the charging cradle is charging.

- Put the earphones into the charging cradle.
  - When the earphones are inserted, the charging cradle LED (cyan) flashes twice. If it is not flashing, the earphones are not inserted correctly.

- Confirm that the **charging cradle LED (cyan) has flashed, (charging starts)**
  - While charging the earphones, the charging cradle LED (cyan) flashes when the lid of the charging cradle is closed.
- When the earphones are inserted, the charging cradle LED (green, yellow or red) lights when the lid of the charging cradle is closed.

- Do not use any other USB charging cords except the supplied one. Doing so may cause malfunction.

Earphones	Approx. 2 hours
Charging cradle	Approx. 2.5 hours
Earphones with Charging cradle	EAH-AZ60 Approx. 3.5 hours EAH-AZ40 Approx. 3 hours

## 1 Charge

La batterie rechargeable (installée dans l'appareil) n'est pas chargée initialement.

Charger la batterie avant d'utiliser l'appareil.

- La charge ne peut pas s'effectuer correctement s'il y a de la poussière ou des gouttes d'eau sur la prise de charge et les bornes des écouteurs ou du boîtier de charge. Retirez la poussière ou les gouttes d'eau avant de charger.

- Utilisez le **cordon de charge USB (fourni)** (a) pour brancher le boîtier de charge à une source d'alimentation 5.0 V (500 mA ou plus) (b).
  - La DEL du boîtier de charge s'allume (en vert, jaune ou rouge) durant la charge du boîtier de charge.

- Mettez les écouteurs dans le boîtier de charge.
  - Lorsque les écouteurs sont mis en place dans le boîtier, la DEL du boîtier de charge (cyan) clignote deux fois. Si elle ne clignote pas, cela signifie que les écouteurs ne sont pas correctement mis en place.

- Vérifiez que la **DEL du boîtier de charge (cyan) a bien clignoté (la charge démarre)**.
  - Durant la charge des écouteurs, la DEL du boîtier de charge (cyan) clignote si le couvercle du boîtier de charge est ouvert.
  - Durant la charge du boîtier, la DEL du boîtier de charge (vert, jaune ou rouge) reste allumée si le couvercle du boîtier de charge est fermé.

- Ne pas utiliser un autre cordon de charge USB, sauf celui fourni. Cela pourrait causer un dysfonctionnement.

Écouteurs	Environ 2 heures
Boîtier de charge	Environ 2,5 heures
Écouteurs avec boîtier de charge	EAH-AZ60 Environ 3,5 heures EAH-AZ40 Environ 3 heures

## 1 Cargándose

La batería recargable (instalada en el aparato) no está cargada inicialmente. Cargue la batería antes de utilizar este aparato.

- No es posible una carga adecuada si hay polvo o gotas de agua en el terminal de carga y las secciones de terminales de los auriculares o el soporte cargador. Retire el polvo o las gotas de agua antes de la carga.

- Utilice el **cable de carga USB (suministrado)** (a) para conectar el soporte cargador a una fuente de alimentación de 5.0 V (500 mA o más) (b).
  - Las luces LED del soporte cargador se iluminan (verde, amarillo o rojo) mientras el soporte cargador se está cargando.

- Coloque los auriculares en el soporte cargador.
  - Al insertar los auriculares, el LED (cyan) del soporte cargador parpadea dos veces. Si no parpadea, significa que los auriculares no se han insertado correctamente.

- Confirme que el **LED (cian) del soporte cargador haya parpadeado (comienza la carga)**
  - Durante la carga de los auriculares, el LED (cian) del soporte cargador parpadea cuando se abre la tapa del mismo.
  - Durante la carga del soporte, el LED (verde, amarillo o rojo) del soporte cargador se ilumina cuando se cierra la tapa del mismo.

- No use ningún otro cable de carga USB que no sea el suministrado. Hacer esto puede provocar una avería.

Auriculares	Aprox. 2 horas
Soporte cargador	Aprox. 2,5 horas
Auriculares con soporte cargador	EAH-AZ60 Aprox. 3,5 horas EAH-AZ40 Aprox. 3 horas

## 2 Pairing

Connecting by pairing (registering) your earphones with a Bluetooth® device

Using the "Technics Audio Connect" app (free of charge) makes connecting with Bluetooth® simple.

- Take both earphones out of the charging cradle.
  - The earphone LEDs will light alternately in blue and red.

- When pairing with the another device: While the earphone LED lights (blue) (about 5 seconds), touch and hold the sensor (L or R) for 7 seconds until the LED starts flashing Red/Blue, indicating that you have entered the pairing mode.

- Turn on the Bluetooth® device and enable the Bluetooth® function.

- From the Bluetooth® menu of the Bluetooth® device, select device name "EAH-AZ60" or "EAH-AZ40".
  - When the earphone LEDs blink twice at approximately 5 second intervals, pairing has been completed and connection has been established.

- Confirm that the earphones and the Bluetooth® device are connected.

## 3 Fit the earphones

Fit the earphones correctly in order to get adequate noise cancelling effect and acoustics.

- Check the orientation and L (left) and R (right) of the earphones.

- Fit the earphones firmly as per the illustration.
  - Confirm that the earphones will not fall from your ears after you have fitted them.
  - The left earphone has a raised dot indicating the L side.
  - If the earphones fall out easily, replace with earpieces (supplied) of a different size.

## 4 Operating with the Touch sensors

Operation	Touch sensor (L)	Touch sensor (R)
<b>Touch once</b>		▶/
<b>Touch rapidly 2 times</b>	Volume –	▶▶
<b>Touch rapidly 3 times</b>	Volume +	◀◀
<b>Touch and hold for about 2 seconds</b>	Start the voice assistant	Change control of external sounds <sup>1</sup>
Operation	Touch sensor (L)	Touch sensor (R)
<b>Touch once</b>		Receive phone call
<b>Touch rapidly 2 times</b>	Volume –	Mute the voice of the call <sup>2</sup>
<b>Touch rapidly 3 times</b>	Volume +	Switch the level of noise from the other party
<b>Touch and hold for about 2 seconds</b>		Reject a phone call End a phone call

<sup>1</sup> EAH-AZ60 : Noise cancelling ↔ Ambient sound

EAH-AZ40 : Ambient sound ↔ OFF

<sup>2</sup> To cancel muting, touch the touch sensor (R) twice again while muting.

- You can customize the touch sensor operation in the app.

## 3 Mise en place des écouteurs

Positionner correctement les écouteurs pour que les effets acoustiques et de réduction du bruit soient correctement obtenus.

L'utilisation de l'application "Technics Audio Connect" (gratuite) facilite la connexion par Bluetooth®.

- Retirer les deux écouteurs du boîtier de charge.
  - Les DEL d'écouteur s'allument alternativement en bleu et en rouge.
  - Lors du couplage avec un autre dispositif : Pendant que la DEL d'écouteur est allumée (bleu) (environ 5 secondes), toucher le capteur (L ou R) pendant 7 secondes jusqu'à ce que le voyant à DEL clignote rouge/bleu, indiquant ainsi le passage en mode de couplage.
- Mettre en marche le dispositif Bluetooth® et activer la fonction Bluetooth®.

- Depuis le menu Bluetooth® du dispositif Bluetooth®, sélectionner le nom de dispositif "EAH-AZ60" ou "EAH-AZ40".
  - Lorsque les DEL d'écouteur clignotent deux fois par période de 5 secondes, le couplage a été effectué et la connexion a été établie.

- S'assurer que les écouteurs et le dispositif Bluetooth® sont connectés.

## 3 Colocación de los auriculares

Colóquese los auriculares correctamente para obtener un efecto de cancelación de ruido y una acústica adecuados.

- Compruebe la orientación y la L (izquierda) y R (derecha) de los auriculares.

- Coloque firmemente los auriculares como se muestra en la ilustración.
  - Confirme que los auriculares no se le caerán de las orejas después de haberse los puesto.
  - El auricular izquierdo tiene un punto elevado que indica el lado L.
  - Si los auriculares se caen fácilmente, reemplácelos por auriculares (suministrados) de un tamaño diferente.

- Encienda el dispositivo Bluetooth® y active la función Bluetooth®.

- Desde el menú Bluetooth® del dispositivo Bluetooth®, seleccione el nombre del dispositivo "EAH-AZ60" o "EAH-AZ40".
  - Cuando los LEDs de los auriculares parpadean dos veces a intervalos de aproximadamente 5 segundos, se habrá completado el emparejamiento y se habrá establecido la conexión.

- Confirme que los auriculares y el dispositivo Bluetooth® están conectados.

## Tips for better sound quality (Changing earpieces)

The sound quality and the level of fit vary depending on the earpiece size. Choose earpieces with a size that snugly fits your left and right ears so they can be worn with comfort.

(The earpiece size that fits best may be different for the left and right ears.)

- Remove the earpieces**  
Hold the earpiece with your fingertips and twist slightly to pull it out.

- Attach the earpieces**  
Make sure the earpieces are fitted firmly into your ears and confirm that they are not at an angle.

## Restoring to the factory settings

- Put both earphones (L and R) into the charging cradle to charge the earphones fully.
- Take the R side earphone out of the charging cradle.
- While the earphone LED lights (blue) (about 5 seconds), touch and hold the touch sensor (R) for about 7 seconds.
  - The earphone LED will light alternately in blue and red.
- Release your finger from the touch sensor (R).
- Touch and hold the touch sensor (R) for about 10 seconds.
  - The earphone LED (blue) blinks rapidly, and when the power turns off, the earphone returns to the factory settings.
- Do the same Steps 2 to 5 above for the L side earphone.

- To re-pair the earphones with a Bluetooth® device, delete the registered information (device name: EAH-AZ60 or EAH-AZ40) on the device, then pair the earphones with the Bluetooth® device again.

## Rétablissement des paramètres d'usine

- Mettez les deux écouteurs (L et R) dans le boîtier de charge pour les charger complètement.
- Retirez l'écouteur côté R du boîtier de charge.
- Pendant que la DEL d'écouteur est allumée (bleu) (environ 5 secondes), touchez le capteur tactile (R) pendant environ 7 secondes.
  - La DEL d'écouteur s'allume alternativement en bleu et rouge.
- Retirez le doigt du capteur tactile (R).
- Touchez le capteur tactile (R) pendant environ 10 secondes.
  - La DEL d'écouteur (bleu) clignote rapidement, et lors de la mise hors marche, l'écouteur récupère ses paramètres d'usine.
- Effectuez les mêmes étapes 2 à 5 avec l'écouteur côté L.

- Pour coupler une nouvelle fois les écouteurs avec un dispositif Bluetooth®, supprimer les informations d'enregistrement (nom du dispositif : EAH-AZ60 ou EAH-AZ40) du dispositif, puis refaire le couplage des écouteurs avec le dispositif Bluetooth®.

## Restauración de los ajustes de fábrica

- Coloque ambos auriculares (L y R) en el soporte cargador para cargarlos completamente.
- Saque el auricular R del soporte cargador.
- Mientras el LED del auricular se ilumina (azul) (unos 5 segundos), mantenga tocado el sensor táctil (R) durante unos 7 segundos.
  - El LED del auricular se iluminará alternativamente en azul y rojo.
- Separe el dedo del sensor táctil (R).
- Mantenga tocado el sensor táctil (R) durante unos 10 segundos.
  - El LED del auricular (azul) parpadeará rápidamente y, cuando se apaga, el auricular vuelve a los ajustes de fábrica.
- Realice los mismos Pasos 2 a 5 de arriba para el auricular del lado L.

- Para volver a emparejar los auriculares con un dispositivo Bluetooth®, borre la información registrada (nombre del dispositivo: EAH-AZ60 o EAH-AZ40) en el dispositivo y luego vuelva a emparejar los auriculares con el dispositivo Bluetooth®.

**EAH-AZ60**

**English**  
This unit complies with the "High Resolution Audio" standard of the Japan Audio Association.  
• To enjoy wireless high-resolution quality (sound quality certified by the high-resolution wireless logo), use a playback device with the high-resolution wireless logo and set the Bluetooth® sound quality setting to sound quality priority mode / LDAC 990 kbps.  
• In modes other than the above (connection priority mode, etc.), playback may not be possible with high resolution quality.

**Français**  
Cet appareil est conforme avec la norme "High Resolution Audio" de Japan Audio Association.  
• Pour bénéficier de la qualité haute résolution sans fil (qualité du son certifiée par le logo "high-resolution wireless"), utiliser un dispositif de lecture possédant le logo "high-resolution wireless" et régler le paramètre de la qualité du son Bluetooth® sur le mode priorité à la qualité du son / LDAC 990 kbps.  
• Dans les modes autres que celui ci-dessus (mode priorité à la connectivité, etc.), la lecture pourrait être impossible en qualité haute résolution.

**Español**  
Este aparato cumple con el estándar "High Resolution Audio" de la Japan Audio Association.  
• Para disfrutar de calidad inalámbrica de alta resolución (calidad de sonido certificada por el logo inalámbrico de alta resolución), utilice un dispositivo de reproducción con el logo inalámbrico de alta resolución y establezca el ajuste de calidad de sonido Bluetooth® en el modo de prioridad de calidad de sonido / LDAC 990 kbps.  
• En otros modos distintos al anterior (modo de prioridad de conexión, etc.), puede que no sea posible la reproducción con calidad de alta resolución.

## Troubleshooting

Before requesting service, make the following checks. If you are in doubt about some of the check points, or if the remedies indicated in the chart do not solve the problem, refer to "Customer Services Directory" on the front page if you reside in the U.S.A., or refer to "CONTACT INFORMATION" on the front page if you reside in Canada, or consult your dealer for instructions.

**Does not connect with the Bluetooth® device.**

- Delete the registration information for this unit from the Bluetooth® menu, etc., of the Bluetooth® device, then pair again.

**Cannot charge the unit.**

- Make sure to charge in a room temperature between 10 °C and 35 °C (50 °F to 95 °F).
- Is the unit already fully charged? The charging cradle LEDs will turn off immediately if the unit is fully charged.
- Have the earphones been put into the charging cradle correctly?
- If the charging cradle LED (cyan) does not flash even after putting the earphones into the charging cradle, then there is no charge remaining in the charging cradle battery. First charge the charging cradle.
- Is the USB charging cord connected firmly to the USB terminal of the computer?

### Solo para México

La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

- ¿Está ya el aparato completamente cargado? Los LEDs del soporte cargador se apagarán inmediatamente si el aparato está completamente cargado.
- ¿Se han colocado correctamente los auriculares en el soporte cargador?
- Si los LEDs de los auriculares no se iluminan aun después de colocar los auriculares en el soporte cargador, entonces no queda carga en la batería del soporte cargador. Cargue primero el soporte cargador.
- ¿Está el cable de carga USB conectado firmemente al terminal USB del ordenador?
