Operating Instructions Blu-ray Disc™ Player

Model No. **DP-UB320**

ULTRAHD™
Blu-ray

Firmware updates

Panasonic is constantly improving the unit's firmware to ensure that our customers are enjoying the latest technology.

Panasonic recommends updating your firmware as soon as you are notified.

For details, refer to "Firmware updates" (⇒ 13) or

<http://panasonic.jp/support/global/cs/> (This site is in English only.)

Thank you for purchasing this product.

Please read these instructions carefully before using this product, and save this manual for future use.

Precautions

WARNING

Unit

To reduce the risk of fire, electric shock or product damage,

- Do not expose this unit to rain, moisture, dripping or splashing.
- Do not place objects filled with liquids, such as vases, on this unit.
- Use the recommended accessories.
- Do not remove covers.
- Do not repair this unit by yourself. Refer servicing to qualified service personnel.
- Do not let metal objects fall inside this unit.
- Do not place heavy items on this unit.

AC mains lead

To reduce the risk of fire, electric shock or product damage,

- Ensure that the power supply voltage corresponds to the voltage printed on this unit.
- Insert the mains plug fully into the socket outlet.
- Do not pull, bend, or place heavy items on the lead.
- Do not handle the plug with wet hands.
- Hold onto the mains plug body when disconnecting the plug.
- Do not use a damaged mains plug or socket outlet.

The mains plug is the disconnecting device.

Install this unit so that the mains plug can be unplugged from the socket outlet immediately.

CAUTION

Unit

This unit utilizes a laser. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

- Do not place sources of naked flames, such as lighted candles, on this unit.
- This unit may receive radio interference caused by mobile telephones during use. If such interference occurs, please increase separation between this unit and the mobile telephone.
- This unit is intended for use in moderate and tropical climates.
- Some portions of this unit may become hot during use. When moving or cleaning this unit, disconnect the AC mains lead and wait for 3 minutes or longer.

Placement

Place this unit on an even surface.

To reduce the risk of fire, electric shock or product damage,

- Do not install or place this unit in a bookcase, built-in cabinet or in another confined space. Ensure this unit is well ventilated.
- Do not obstruct this unit's ventilation openings with newspapers, tablecloths, curtains, and similar items.
- Do not place the unit on amplifiers/receivers or equipment that may become hot. The heat can damage the unit.
- Do not expose this unit to direct sunlight, high temperatures, high humidity, and excessive vibration.

Batteries

Mishandling of batteries can cause electrolyte leakage and may cause a fire.

- Danger of explosion if battery is incorrectly replaced. Replace only with the type recommended by the manufacturer.
- When disposing of the batteries, please contact your local authorities or dealer and ask for the correct method of disposal.
- Do not mix old and new batteries or different types at the same time.
- Do not heat or expose to flame.
- Do not leave the battery(ies) in a car exposed to direct sunlight for a long period of time with doors and windows closed.
- Do not take apart or short circuit.
- Do not recharge alkaline or manganese batteries.
- Do not use batteries if the covering has been peeled off.

Remove batteries if you do not intend to use the remote control for a long period of time. Store in a cool, dark place.

Caution for AC Mains Lead

(For the AC mains plug of three pins)

How to replace the fuse

The location of the fuse differ according to the type of AC mains plug (figures A and B). Confirm the AC mains plug fitted and follow the instructions below.

Illustrations may differ from actual AC mains plug.

1. Open the fuse cover with a screwdriver.

2. Replace the fuse and close or attach the fuse cover.

Restriction on use of unauthorized copied content

This unit adopts the following technology for copyright protection.

Cinavia Notice

This product uses Cinavia technology to limit the use of unauthorized copies of some commercially-produced film and videos and their soundtracks. When a prohibited use of an unauthorized copy is detected, a message will be displayed and playback or copying will be interrupted.

More information about Cinavia technology is provided at the Cinavia Online Consumer Information Center at <http://www.cinavia.com>. To request additional information about Cinavia by mail, send a postcard with your mailing address to: Cinavia Consumer Information Center, P.O. Box 86851, San Diego, CA, 92138, USA.

To dispose or transfer this unit

The unit may keep the user settings information in the unit. If you discard this unit either by disposal or transfer, then follow the procedure to return all the settings to the factory presets to delete the user settings. (⇒ 29, "To return all settings to the factory preset.")

- The operation history may be recorded in the memory of this unit.

To enjoy Ultra HD Blu-ray Disc featured with High Dynamic Range (HDR)

If you see a message about High Dynamic Range (HDR) compatible issue while an Ultra HD Blu-ray Disc is played back, please check your TV settings as follows.

An example of the message:

"This player is not connected to a High Dynamic Range (HDR) compatible TV."

- 1) When you use a Panasonic TV that is compatible with 4K/High Dynamic Range (HDR) and was released in 2015 or later, enable the HDR setting of the TV. (This setting may not be available depending on the TV. Refer to the operating instructions of the TV for details.)
- 2) If you use a TV not from Panasonic, compatible with 4K and High Dynamic Range (HDR), please refer to the operating instructions of the TV.
- 3) When you play a High Dynamic Range (HDR) disc on a TV without High Dynamic Range (HDR) capability, the disc can be played back (in non-HDR quality) even if the message appears.

Accessories

Check the supplied accessories before using this unit.

- 1 Remote control
(N2QAYB001185)
- 2 Batteries for remote control
- 2 AC mains lead*
- 1 HDMI Cable

* See page 10 for more information.

- Product numbers are provided in these operating instructions correct as of April 2018. These may be subject to change.
- Do not use AC mains lead with other equipment.

■ Using the remote control

Insert the batteries to the terminal so that it (+ and -) matches those in the remote control.

R6/LR6, AA

(Alkaline or manganese batteries)

Point it at the remote control signal sensor on this unit. (⇒ 9)

Unit and media care

■ Clean this unit with a soft, dry cloth

- Never use alcohol, paint thinner or benzine to clean this unit.
- Before using chemically treated cloth, carefully read the instructions that came with the cloth.

■ This unit's lens

Use the lens cleaner (not supplied) to clean the unit's lens.

■ Clean discs

DO

DO NOT

Wipe with a damp cloth and then wipe dry with a dry cloth.

■ Disc handling precautions

- Handle discs by the edges to avoid inadvertent scratches or fingerprints on the disc.
- Do not attach labels or stickers to discs.
- Do not use disc cleaning sprays, benzine, thinner, static electricity prevention liquids or any other solvent.
- Do not use the following discs:
 - Discs with exposed adhesive from removed stickers or labels (rented discs, etc.).
 - Discs that are badly warped or cracked.
 - Irregularly shaped discs, such as heart shapes.

Playable media

Device	Media markings	Device types	Contents format
BD		Ultra HD Blu-ray*1*2	Video
		BD-Video	Video
		BD-RE BD-RE DL	Video, JPEG, MPO
		BD-R BD-R DL	Video, MKV, JPEG, MPO
DVD		DVD-Video	Video
		DVD-R	Video, AVCHD, MKV, JPEG, MPO, AAC, AIFF, ALAC, DSD (DFF, DSF), FLAC, MP3, WAV, WMA
		DVD-R DL	
		DVD-RW	Video, AVCHD
	—	+R/+RW/+R DL	
CD		Music CD	Music [CD-DA]
	—	CD-R CD-RW	MKV, JPEG, MPO, AAC, AIFF, ALAC, FLAC, MP3, Music [CD-DA], WAV, WMA

- See pages 7 and 34 for more information on the types of content that can be played.

*1 See "Enjoying Ultra HD Blu-ray" (⇒ 16)

*2 Unless otherwise indicated, BD-Video content includes Ultra HD Blu-ray content in these operating instructions.

■ Types of discs that cannot be played by this unit

Any other disc that is not specifically supported or previously described.

- DVD-RAM
- Super Audio CD
- Photo CD
- DVD-Audio
- Video CD and Super Video CD
- HD DVD

■ Region management information

The unit can play back BD-Video/DVD-Video discs of the following regions codes, including "ALL":

Example: BD-Video DVD-Video

■ Finalize

Any DVD-R/RW/R DL, +R/+RW/+R DL and CD-R/RW that are recorded by a recorder need to be finalized by the recorder to play on this unit. Please refer to the recorder's instructions.

■ BD-Video

This unit supports high bit rate audio (Dolby® Digital Plus, Dolby® TrueHD, DTS-HD High Resolution Audio™ and DTS-HD Master Audio™) adopted in BD-Video.

■ 3D

3D videos and 3D still pictures can be played back when this unit is connected to a 3D compatible TV using a High Speed HDMI Cable.

■ Music CD

Operation and sound quality of CDs that do not comply with CD-DA specifications (copy control CDs, etc.) cannot be guaranteed to work.

■ USB device

- Connect a USB device while the Home screen is displayed.
- This unit does not guarantee connection with all USB devices.
- This unit does not support USB device charging.
- FAT12, FAT16, FAT32, and NTFS file systems are supported.
- This unit supports USB 2.0 High Speed.
- This unit supports an HDD formatted in FAT32 and NTFS. If the HDD is not recognized, the power to the HDD may not be supplied. Supply power from an external source.

■ BD-RE, BD-R

This unit may not correctly play back the audio portion of a video recorded to a disc in multiple languages with a Blu-ray disc recorder.

- It may not be possible to play the above media in some cases due to the type of media, the condition of the recording, the recording method, and how the files were created.
- The producers of the disc can control how discs are played, so you may not always be able to control play as described in these operating instructions. Read the disc's instructions carefully.

Control reference guide

■ Remote control

When other Panasonic devices respond to the remote control of the unit, change the remote control code. (⇒ 28)

- 1 Turn the unit on and off
- 2 TV operation buttons
You can operate the Panasonic TV using this unit's remote control. Some buttons may not work depending on the TV.
- 3 Select title numbers, etc./Enter numbers or characters
- 4 Cancel
Clear the currently selected character.
(when entering a password for "Ratings" in the Setup menu, for example)
- 5 Change soundtrack (⇒ 15)
- 6 Basic playback control buttons (⇒ 14)
- 7 Show Pop-up menu (⇒ 15)
- 8 Show Top menu (⇒ 15)
- 9 Show Option menu (⇒ 21)
- 10 Coloured buttons (red, green, yellow, blue)
Used for various purposes depending on the screen
- 11 Transmit the remote control signal
- 12 Open or close the disc tray (⇒ 9)
- 13 Show the status messages (⇒ 15)
- 14 Show "Playback Information Window" (⇒ 15)
- 15 Show the Home screen of the Network Service (⇒ 18)
- 16 Show "HDR Setting" (⇒ 15)
- 17 Show NETFLIX screen (⇒ 18)
- 18 Show HOME menu (⇒ 14)
- 19 [▲, ▼, ◀, ▶]: Move the highlight for selection
[OK]: Confirm the selection
(◀|||)(|||▶): Frame-by-frame (⇒ 15)
- 20 Return to previous screen

■ Front

 Class II equipment (The construction of the product is double-insulated.)

Connecting to a TV

4K images can be played back when this unit is connected to 4K compatible TV.

- Before making any connections, please disconnect all the units from AC power.
(Connect the AC mains lead after making all connections.)
- Use the High Speed HDMI cables. Non-HDMI-compliant cables cannot be utilized.
- The HDMI-compliant cable is supplied with this unit.
- This unit consumes a small amount of AC power (⇒ 34) even when turned off in standby mode. For the purpose of energy conservation, the unit should be disconnected if you will not be using it for extended period of time.

Use the AC mains lead that matches the socket for the area you live in.

■ Enjoying 4K output

- To enjoy images in 4K (50p/60p), you need an HDMI cable that supports 18 Gbps.
A High Speed HDMI-compliant cable that supports 18 Gbps is supplied with this unit.
Part number : K1HY19YY0048
- **If you connect this unit to a 4K-compatible TV and perform “Easy Settings”, 4K (50p/60p) will be automatically selected. (⇒ 13, 28)**
- To view Ultra HD Blu-ray content in 4K/HDR format, connect to the HDMI terminal of a device that supports HDCP2.2, 4K (50p/60p) 4:4:4, and HDR signals that meet Ultra HD Blu-ray standards.

Enjoying video and audio with a 4K-compatible TV

Connecting to an amplifier/receiver

Enjoying video with a 4K-compatible TV and audio with a 4K-compatible amplifier

- About ARC:
When using the TV or amplifier/receiver that does not have the indication of "(ARC)" (non-ARC-compatible) on the HDMI terminal, the amplifier/receiver and TV must also be connected using an optical digital cable or coaxial cable in order to enjoy the TV's sound through the amplifier/receiver.

Connecting an amplifier to a 4K-compatible TV

3D or 4K images can be played back when this unit is connected to a 3D or 4K compatible TV.

- This connection only supports up to 5.1ch.
- To connect a TV and amplifier with an HDMI cable, connecting terminals on both the TV and amplifier must be ARC-compatible. (⇒ above, "About ARC")

Connecting to the network

The following services can be used when this unit is connected to broadband.

- Firmware can be updated (⇒ 13)
- You can enjoy BD-Live/Network Service (⇒ 16, 18)
- You can access other devices (Home Network) (⇒ 19)

For details about connection method, refer to the instructions supplied with the connected equipment.

LAN cable connection

- Use category 5 or above straight LAN cables (STP) when connecting to peripheral devices.
- Inserting any cable other than a LAN cable in the LAN port can damage the unit.

Settings

The following settings can be performed anytime in the Setup menu. (⇒ 27, 28)

Easy Settings /Easy Network Setting

After connecting your new player for the first time and pressing [⏏], the basic settings screen will appear.

Preparation

Turn on the TV and select the appropriate video input.

1 Press [⏏].

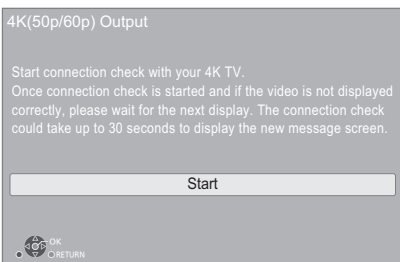

Setup screen appears.

2 Follow the on-screen instructions to continue with the settings.

(e.g., "Quick Start")

■ When connected to a 4K (50p or 60p)-compatible TV

When connected to a 4K (50p or 60p)-compatible TV, you can set the video output format.

Follow the on-screen instructions to set the format.

- To reconnect this unit to a 4K (50p or 60p)-compatible TV after connecting this unit to a 2K-compatible TV and completing "Easy Settings", set "4K(50p/60p) Output" to "4K(50p/60p) 4:4:4" or "4K(50p/60p) 4:2:0". (⇒ 24)
- Refer to the operating instructions of the hub or router.
- If you have trouble getting online on your PC after performing network settings on this unit, perform the network settings on your PC.

Firmware updates

This unit is capable of checking the firmware automatically when connected to the Internet via a broadband connection.*1

When a new firmware version is available, the following message is displayed.

Select "Yes" to start downloading the firmware. When the firmware update starts after the downloading is finished, a black screen is displayed and the POWER LED flashes rapidly.

You cannot operate the unit until the update is complete. Don't remove the AC mains lead during the update. Removing the AC mains lead while the update is in progress may damage the unit.

After the firmware is installed, unit will restart and the following screen will be displayed.

- You can also download the latest firmware from the following website and store it to a USB device to update the firmware.
<http://panasonic.jp/support/global/cs/>
(This site is in English only.)
When the update is complete the POWER LED will stop rapid flashings and start flashing in a repeating pattern of three flashes. Turn off and on the unit. (⇒ 33)
- To show the firmware version on this unit. (⇒ 28, "Firmware Version Information")
- Downloading will require several minutes. It may take longer or may not work properly depending on the connection environment.

*1 You must agree to the terms of use for the Internet function and the privacy policy. (⇒ 27, "Legal Notices")

*2 "X.XX" represents the firmware version number.

HOME menu

Major functions of this unit can be operated from the HOME menu.

Preparation

Turn on the TV and select the appropriate video input.

- 1 Press [⏻] to turn on the unit.
- 2 Press [OK] or [◀, ▶] to select the item.
 - Press [OK] or [▲, ▼] to select the item if necessary.

Videos/Music/Photos

Disc	Play back the contents. (⇒ right)
USB	<ul style="list-style-type: none"> • When multiple contents are recorded, select the types of contents or the title. • See “Playable media” (⇒ 6)

Home Network

Media Renderer	(⇒ 19)

Network Service

Displays the Home screen of Network Service.
(⇒ 18)

Setup

Player Settings	(⇒ 24)
Wallpaper	Changes the background of HOME menu.
BD-Video Data Erase	(⇒ 16)

To show the HOME menu

Press [HOME].

- Items to be displayed may vary with the media.

Playback

- 1 **Insert the media.**
Playback starts depending on the media.
- 2 **Select the item to play and press [OK].**
Repeat this step if necessary.

- DISCS CONTINUE TO ROTATE WHILE MENUS ARE DISPLAYED. Press [■STOP] when you have finished playback to protect the unit's motor, your TV screen and so on.
- When the following conditions are met, still pictures are played back in 4K regardless of the image quality.
 - The unit is connected to a 4K compatible TV
 - “Video Format” is set to “Automatic” or “4K” (⇒ 24)
- This unit can not output 4K images when playing back in 3D.
- It is not possible to play back AVCHD and MPEG2 videos which have been dragged and dropped or copied and pasted to the media.
- To enjoy BD-Video that supports Dolby Atmos® or DTS:X™ (⇒ 25)

Operations during playback

Some operations may not work depending on the media and contents.

Stop

Press [■STOP].

The stopping point is memorized.

Resume play function

Press [▶PLAY] to restart from this point.

- The point is cleared if the media is removed.
- **On BD-Video discs including BD-J, the resume play function does not work.**

Pause

Press [II PAUSE].

- Press [II PAUSE] again or [▶PLAY] to restart play.

Search/Slow motion

Search

While playing, press [SEARCH◀◀] or [SEARCH▶▶].

- Ultra HD Blu-ray, MKV, MP4 and MPEG2: Audio is not heard.

Slow motion

While paused, press [SEARCH◀◀] or [SEARCH▶▶].

- BD-Video and AVCHD: [SEARCH▶▶] only.
- MKV, MP4 and MPEG2: Not effective.

The speed increases up to 5 steps.

- Music, MP3, etc.: The speed is fixed to a single step.
- Press [▶PLAY] to revert to normal playback speed.

Skip

While playing or paused, press [◀◀] or [▶▶].

Skip to the title, chapter or track.

Frame-by-frame

While paused, press [◀] (◀II) or [▶] (II▶).

- Each press shows the next frame.
- Press and hold to change in succession forward or backward.
- Press [▶PLAY] to revert to normal playback speed.
- BD-Video and AVCHD: Forward only.
- MKV, MP4 and MPEG2: Not effective.

Changing soundtrack

Press [AUDIO].

You can change the audio channel number or soundtrack language, etc.

Show top menu/pop-up menu

Press [TOP MENU] or [POP-UP MENU].

Select the item and press [OK].

Adjust the screen brightness

While playing HDR video, press [HDR SETTING].

When HDR (High Dynamic Range) video is output to a connected HDR-compatible TV, a menu is displayed, allowing you to adjust the brightness of the entire screen. (⇒ 4, 22) Press [◀, ▶] to adjust the setting.

Press [RETURN] to exit.

Show the status messages

While playing, press [PLAYBACK INFO].

You can check the detailed video content* playback status.

	Video attribute information of video content*
	Audio attribute information of video content*
	HDMI output information

Press [RETURN] to exit.

* BD-Video, DVD-Video, MKV, MP4, MPEG2 (except Network Contents)

While playing, press [STATUS].

The status messages give you information about what is currently being played. Each time you press [STATUS], the display information may change or disappear from the screen.

- Depending on media and contents, the display may change or not appear.

e.g., Ultra HD Blu-ray

- A** Displayed when an HDR (High Dynamic Range) video signal is being output.
 - “HDR (High Dynamic Range: HLG to PQ Conversion)” : The format of the HDR video is converted from HLG to PQ
 - “Dynamic Range Conversion Output” : The video signal is converted to SDR (Standard Dynamic Range)
- B** T: Title, P: Programme, C: Chapter, PL: Playlist
- C** Elapsed time in the title
- D** Method of HDR (High Dynamic Range) video
- E** Output resolution/Frame rate
- F** Current position
- G** Total time

e.g., JPEG

Date	11.12.2010	No. 1/26

Manufacturer		
Equipment		

Enjoying Ultra HD Blu-ray

You can enjoy the playback of Ultra HD Blu-ray discs with this unit.

Preparation

- For 4K/HDR viewing, connect to a device and terminals that support HDCP2.2*¹, 4K (50p/60p) 4:4:4 and HDR signals that meet Ultra HD Blu-ray standards. (⇒ 10)

Due to copyright restrictions, it may not be possible to play back certain discs unless this unit is connected to the Internet.

- When connected to a device or terminal that does not support HDCP2.2*¹, this unit applies Dynamic Range Conversion*² to HDR signals to output them in 2K resolution. In addition, depending on the disc, it may not be possible to perform playback correctly.
- When connected to a device or terminal that supports 4K (50p/60p) 4:2:0 (8 bit) and lower, this unit plays back 50p/60p content by applying Dynamic Range Conversion*² to its HDR signals to output them.
- When connected to a device or terminal that does not support 4K resolution, this unit applies Dynamic Range Conversion*² to HDR signals to output them in 2K resolution.
- When connected to a device or terminal that does not support HDR, this unit applies Dynamic Range Conversion*² to HDR signals to output them. In addition, depending on the disc, it may not be possible to output content in 2K resolution or perform playback correctly.

*¹ HDCP is a technology designed to prevent illegal copying. "2.2" represents a version.

*² Dynamic Range Conversion is a function that converts HDR video signals into video signals suited to TVs that do not support HDR input.

Enjoying 3D video and photos

Preparation

Connect this unit to a 3D compatible TV. (⇒ 10)

- Perform the necessary preparations for the TV.
- Play back following the instructions displayed on the screen.
- 3D Settings (⇒ 23, 26)

- Please refrain from viewing 3D images if you do not feel well or are experiencing visual fatigue. In the event that you experience dizziness, nausea, or other discomfort while viewing 3D images, discontinue use and rest your eyes.
- 3D video might not output the way it is set in "Video Format" and "24p Output" (⇒ 24).
- When playing back 3D photos from "Photos" screen, select from the "3D" list. (Still pictures in "2D" are played back in 2D.) If "2D" and "3D" indications are not displayed, press the red button on the remote control to switch the view of playback contents.

Enjoying BD-Live

With "BD-Live" discs, you can enjoy bonus contents that use Internet access.

For this BD-Live function, connection of a USB device is necessary along with Internet connection.

- 1 Perform network connection and settings.**
(⇒ 12, 13)
- 2 Connect a USB device with 1 GB or more free space.**
 - The USB device is used as the local storage.
- 3 Insert the disc.**

■ Deleting data on the USB device

Select "BD-Video Data Erase" in the HOME menu (⇒ 14) and press [OK].

- The usable functions and the operating method may vary with each disc, please refer to the instructions on the disc and/or visit their website.
- "BD-Live Internet Access" may need to be changed for certain discs. (⇒ 27)

Slideshow

Play a slideshow of photos and adjust various settings during the playback.

- 1 Insert the media.
- 2 Select “View Photos”.
- 3 Select an item and press the green button.

The following items can be set.

Start Slideshow	Start the slideshow. You can display still pictures in the selected folder one by one at a constant interval.
Interval	Change the display interval.
Transition Effect	Select the effect when sliding pictures.
Repeat Play	Set whether to repeat the slideshow.
Soundtrack	Set whether to play background music. ● FLAC and MP3, etc., on the USB device can be played back during the slideshow of JPEG on the USB device.
Soundtrack Folder	Select the folder from which the music files are played.
Shuffle BGM	Background music is played in random order.

- Still pictures displayed as “” cannot be displayed as thumbnail with this unit.
- You cannot play back AAC and ALAC as background music.

Enjoying Network Service

Network Service allows you to access some specific websites supported by Panasonic, and enjoy Internet contents such as photos, videos, etc. from Network Service home screen.

* Images are for illustration purposes, contents may change without notice.

Preparation

- Network connection (⇒ 12)
- Network setting (⇒ 13)
 - You must agree to the terms of use for the Internet function and the privacy policy. (⇒ 27, "Legal Notices")

1 Press [INTERNET].

- Netflix can be accessed directly by pressing [NETFLIX] button even when this unit is off.

2 Select the item and press [OK].

To exit from Network Service

Press [HOME].

- In the following cases, settings are possible using the Setup menu items.
 - When restricting the use of Network Service (⇒ 28, "Network Service Lock")
 - When the audio is distorted (⇒ 27, "Audio Auto Gain Control")
 - When wrong time is displayed (⇒ 27, "Time Zone", "Summer Time")
- When using a slow Internet connection, the video may not be displayed correctly. A high speed Internet service with a speed of at least 6 Mbps is recommended.
- Be sure to update the firmware as soon as a firmware update notice is displayed on the screen. If the firmware is not updated, you may not be able to use Network Service function properly. (⇒ 13)
- Network Service Home Screen is subject to change without notice.
- The services through Network Service are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
- Some features of websites or content of the service may not be available.
- Some content may be inappropriate for viewers.
- Some content may only be available for specific countries and may be presented in specific languages.

Home Network feature

Before using the following features, be sure to configure the connected equipment on your Home Network.

Playing back contents on the Network Contents server

You can share photos, videos and music stored in the Network Contents server*¹ [PC, smartphone, recorders, etc.] connected to your home network.

- About support format of Network Contents (⇒ 35)

- 1 Press [HOME].
- 2 Select “Home Network” and press [OK].
- 3 Select “Network Contents Playback” and press [OK].
 - The list can be updated by pressing the green button on the remote control.
 - The selected equipment can be deleted from the list by pressing the red button on the remote control.
- 4 Select the equipment and press [OK].
- 5 Select the item to play and press [OK].
 - You may be able to use convenient functions depending on the content by pressing [OPTION].

To exit from Network Contents Playback screen

Press [HOME].

Using the Digital Media Controller

You can use a smartphone or tablet as the Digital Media Controller (DMC) to playback contents from Network Contents server*¹ on the Renderer (this unit).

Possible applications:

- 1 Press [HOME].
- 2 Select “Home Network” and press [OK].
- 3 Select “Media Renderer” and press [OK].
- 4 Operate the DMC compatible devices.

To exit from Media Renderer screen

Press [HOME].

- Depending on the device or connection environment, the data transfer rate may decrease.
- Depending on the contents and the connected equipment, playback may not be possible.
- Items displayed in grey on the display cannot be played back by this unit.

*¹ DLNA compatible server, etc.

*² DMC compatible software should be installed.

VIERA Link

What is VIERA Link?

VIERA Link is a convenient function which will link the operations of this unit and a Panasonic TV (VIERA) or other device under “VIERA Link”.

You can use this function by connecting the equipment with an HDMI cable. See the operating instructions for connected equipment for operational details.

Automatic input switching Power on link

When the following operations are performed, the input channel of the TV will be automatically switched and the screen of this unit will be displayed.

If this unit is on and the TV is off, the TV automatically turns on.

- When play starts on the unit
- When you display a menu, such as the HOME menu or Setup menu

Power off link

When you set the TV to standby mode, this unit is also automatically set to standby mode.

Playing music continuously even after turning off the TV

When the unit is connected to a Panasonic TV (VIERA) that supports VIERA Link and an amplifier/receiver supports VIERA Link.

- ① While playing music
Press [OPTION].
- ② Select “TV Power Off”.

Easy control only with VIERA remote control

Only when TV supports “VIERA Link”

By using the TV remote control, you can perform various playback operations and settings.

See the operating instructions of the TV for more details.

- If you set “VIERA Link” to “Off”, set to “On” (⇒ 28). (The default setting is “On”.)
- The buttons and functions that you can use for this unit vary depending on the TV. For details, refer to the operating instructions of the TV.
- The operation of this unit may be interrupted when you press certain buttons on the TV remote control.
- VIERA Link, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added. As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
- Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function.

Option menu

A variety of playback operations and settings can be performed from this menu.

Available options differ depending on the playing contents and the condition of the unit.

1 Press [OPTION].

e.g., Ultra HD Blu-ray

- When playing music, select "Playback Settings" and press [OK].

2 Select an item and change the settings.

To exit the screen

Press [OPTION].

Regarding Language : (⇒ 36)

Operation Menu

■ Soundtrack (⇒ 15)

This setting is also able to switch by pressing [AUDIO].

■ Audio Channel

Select the audio channel number.

■ Subtitles

■ Subtitle Settings

Change the subtitle settings.

■ Angle

Select the number of the angle.

■ Repeat Play

Select the item that you want to repeat.

- You can repeat the playback of a chapter, playlist, the entire disc, etc., but the items displayed will differ depending on the type of the media.
- Select "Off" to cancel.

■ Shuffle

Select whether to play shuffle or not.

■ Start Slideshow

Start the slideshow.

■ Status

Show the status messages.

■ Rotate RIGHT

■ Rotate LEFT

Rotate the still picture.

■ Wallpaper

Set the still picture to the wallpaper of HOME menu. (⇒ 14)

■ Video

The recording method of original video appears.

■ Secondary Video

Video	Select on/off for images. The recording method of original video appears.
Soundtrack	Select on/off for audio and the language.

■ Playback Information Window (⇒ 15)

This setting is also displayed by pressing [PLAYBACK INFO].

■ Control Panel

Display the Control Panel.

Playing back while using VIERA Link, etc.

e.g.,

Press [RETURN] to hide the Control Panel.

■ Top Menu

Display Top Menu.

■ Pop-up Menu

Display Pop-up Menu.

■ Menu

Display Menu.

Picture Settings

Switch “Set 1”, “Set 2” or “Standard” by using [◀, ▶].

- Settings for BD Video playback, Ultra HD Blu-ray playback and settings for the playback of other types of media are registered separately.
(The default settings for “Set 1”/ “Set 2” are the same as the settings for “Standard”.)
- You cannot change the “Standard” settings.

■ Display

Select a setting suitable for your screen.

■ Picture Type

Select the picture quality mode during play.

■ Optimum HDR Adjustment

This setting is also displayed by pressing and holding [HDR SETTING] for more than 2 seconds. (⇒ 15)

- Dynamic Range Adjustment :
Set the brightness of the entire screen when outputting HDR (High Dynamic Range) video to a connected HDR-compatible TV.
- DR Conversion Adjustment :
When this unit is connected to a TV that does not support HDR (High Dynamic Range) input, HDR video is output converting to a SDR (Standard Dynamic Range) video signal. If you set a smaller value, their contrast will be reproduced more faithfully, but the entire screen will appear darker. To increase the brightness, set a larger value.

■ Luminance Adjustment

Adjust the contrast, brightness and tone curve (white/black).

■ Colour Adjustment

Adjust the colour saturation and hue.

■ Sharpness Adjustment

Adjust the sharpness of images. The greater the value is, the sharper images will be.

■ Noise Reduction

Reduce unnecessary noise in videos. The greater the value is, the less noise will appear.

■ Bandwidth Limitation

Adjust the bandwidth limitations.

■ Progressive

Select the method of conversion for progressive output to suit the type of material being played.

- If the video is disrupted when “Auto” is selected, select either “Video” or “Film” depending on the material to be played back.

■ Reset to Default Picture Settings

Return “Picture Settings” of the selected tab (“Set 1” or “Set 2”) to the factory preset.

Sound Settings

■ Sound Effects*1, *2

Select the sound effect.

(Upsampling up to 192 kHz/32 bit is possible.)

- Night Surround :

Enjoy a movie with powerful sound even when the volume is kept low at night. The audio is set in such a way that it can be heard easily.

■ DSD Decode Sampling Frequency

Select the settings that suit your sound quality preferences.

■ DSD LPF Setting

Select the settings that suit your sound quality preferences.

■ Dialogue Enhancer*2

The volume of the centre channel is raised to make dialog easier to hear.

*1 Not every function can be set individually.

*2 This function is effective when "Digital Audio Output" is set to "PCM" (⇒ 25).

3D Settings

■ Signal Format

Original	Keep original picture format.
Side by side	3D picture format comprising of left and right screens.

■ Graphic Display Level

3D position for the Option menu or message screen, etc. can be adjusted during 3D playback.

Setup menu

Change the unit's settings if necessary. The settings remain intact even if you switch the unit to standby.

- 1 Press [HOME].
- 2 Select "Setup".
- 3 Select "Player Settings".

- 4 Select an item and change the settings.

To exit the screen

Press [HOME].

HDMI

Video Format

The items supported by the connected devices are indicated on the screen as "✱". When any item without "✱" is selected, the images may be distorted.

- If "Automatic"^{*1} is selected, the best suited output resolution to the connected TV is automatically selected.

4K(50p/60p) Output

This unit automatically chooses to output images in 4K^{*2} (50p/60p) when connected to a 4K (50p or 60p) compatible TV.

- This item is available only when "Video Format" is set to "Automatic" and "4K".
- To connect to a TV that supports 4K (50p/60p) 4:4:4/8 bit or 4K (50p/60p) 4:2:2/12 bit, select "4K(50p/60p) 4:4:4".
Images will not be output correctly with an HDMI cable that does not support 18 Gbps. (The supplied HDMI cable supports 18 Gbps.)
- To connect to a TV that supports 4K (50p/60p) 4:2:0/8 bit, select "4K(50p/60p) 4:2:0".

24p Output

Content recorded at 24p^{*3}, such as BD-Video films, is output at 24p when played back.

- When this unit is connected to TV compatible with 4K/24p and "Video Format" is set to "Automatic" or "4K", images will be output in 4K/24p.
- When this unit is connected to a TV compatible with 1080/24p and "Video Format" is set to "Automatic", "1080i" or "1080p", images will be output in 1080/24p.
- If images output in 24p are distorted, change the setting to "Off".

Advanced Settings

Press [OK] to show the following settings:

Colour Mode

This setting is for selecting colour-space conversion of the image signal.

Deep Colour Output

Set the output method to be used when this unit is connected to a TV that supports Deep Colour.

HDR (High Dynamic Range) Output

Output images in HDR (High Dynamic Range) format depending on the content and connected device.

HLG / PQ Conversion

Set whether or not to convert HDR (High Dynamic Range) videos in HLG format to PQ format before outputting them when this unit is connected to a TV that supports only HDR (PQ) format.

- When "HDR (High Dynamic Range) Output" is set to "Off", this setting is disabled.

HDCP Output Setting

If you connect to a TV that does not support HDCP2.2 via an amplifier or speaker, some images may be displayed as black screens. In that case, select "HDCP1.4 Limit".

Contents Type Flag

Depending on the playback content, the TV will output adjusting to the optimal method when a TV that supports this function is connected.

^{*1} It displays images at the highest resolution available on your TV.

^{*2} A high resolution image/display technology of approximately 4000 (width) × 2000 (height) pixels.

^{*3} A progressive image recorded at a rate of 24 frames per second (motion-picture film). Many BD-Video movie contents are recorded in 24 frames/second in accordance with the film materials.

Picture

■ Still Mode

Select the type of picture shown when you pause playback.

Automatic	Automatically selects the type of picture shown.
Field	Select if jittering occurs when "Automatic" is selected.
Frame	Select if small text or fine patterns cannot be seen clearly when "Automatic" is selected.

■ Seamless Play

This enables smooth playback of the gaps between pieces of content such as programmes.

- The expected effect may not be achieved depending on the content.
- If you select "Off", playback will be accurate, but the picture may freeze for a moment.

Sound

■ Dynamic Range Compression

You can listen at low volumes but still hear dialogue clearly.

(Dolby Digital, Dolby Digital Plus and Dolby TrueHD only)

- "Automatic" is effective only when playing Dolby TrueHD.

■ Digital Audio Output

Press [OK] to show the following settings:

➤ Dolby Audio

➤ DTS/DTS-HD

➤ MPEG Audio

Select the audio signal to output.

- Select "PCM", when the connected equipment cannot decode the respective audio format. This unit decodes the audio format and transmits to the connected equipment.
- If you do not make proper settings the audio may be static or noisy.

➤ BD-Video Secondary Audio

Select whether or not to mix the primary and secondary audio (including the button click sound).

If "Off" is selected, the unit outputs the primary audio only.

• To enjoy BD-Video that supports Dolby Atmos® or DTS:X™

Connect this unit to an AV amplifier or similar device that supports it with an HDMI cable, and select the following settings:

- Dolby Audio: "Bitstream"
- DTS/DTS-HD: "Bitstream"
- BD-Video Secondary Audio: "Off"

Dolby Atmos is a trademark of Dolby Laboratories.

■ Downmix

Select the downmix system of multi-channel to 2-channel sound.

- Select “Surround encoded”, when the connected equipment supports the virtual surround function.
- The downmix effect is not available when “Digital Audio Output” is set to “Bitstream”.
- The audio will be output in “Stereo” in the following cases:
 - AVCHD playback
 - Playback of secondary audio (including the button click sound).

■ Audio Delay

Synchronization between picture and sound is corrected by adjusting the delay time of the audio output.

3D

■ 3D BD-Video Playback

Select the playback method of 3D compatible video software.

■ 3D AVCHD Output

Select the output method of 3D AVCHD videos.

■ 3D Playback Message

Set to display or hide the 3D viewing warning screen when playing back the 3D compatible video software.

Language

■ Soundtrack Preference

Choose the language for audio.

- If “Original” is selected, the original language of each disc will be selected.
- When the selected language is not recorded on the disc, or depending on how the navigation is created on the disc, it may playback in a different language than the selected language.
- Enter a code (⇒ 36) when you select “Other ****”.

■ Subtitle Preference

Choose the language for the subtitle.

- When “Automatic” is selected, a subtitle for the language selected in the “Soundtrack Preference” is displayed only when the language other than the language selected in the “Soundtrack Preference” is played back.
- When the selected language is not recorded on the disc, or depending on how the navigation is created on the disc, it may playback in a different language than the selected language.
- Enter a code (⇒ 36) when you select “Other ****”.

■ Menu Preference

Choose the language for the disc menus.

- Enter a code (⇒ 36) when you select “Other ****”.

■ Subtitle Text

Select a desired item according to the language used for MKV subtitles text.

- This item is displayed only after playing back a file.

Network

■ Easy Network Setting (⇒ 13)

■ Network Settings

Perform network-related settings individually. Press [OK] to show the following settings:

► IP Address / DNS Settings

This is for checking the state of the network connection and setting the IP address and DNS-related.

Press [OK] to show the respective setting.

► Proxy Server Settings

This is for checking the state of connection with the Proxy server and performing settings.

Press [OK] to show the respective setting.

► Network Service Settings (⇒ 18)

Press [OK] to show the following settings:

Audio Auto Gain Control

Volume that is different depending on the contents is adjusted automatically to the standard volume while using the Network Service.

- Depending on contents, this function effect will not work.
- Select "Off" when the audio is distorted.

Time Zone

Set the unit's time to match your location.

- Some Network Service contents require the time zone to be set. Set time zone if necessary.

Summer Time

Select "On" when using summer time.

► Network Drive Connection

This unit can access a hard disk shared folder on a network and play back videos, still pictures, and music.

► Remote Device Settings (⇒ 19)

Press [OK] to show the following settings:

Device Name Entry

Set the name of this unit to be displayed on the connected equipment.

Registration Type

Automatic	Allow connections to all the equipment accessing this unit.
Manual	Set the permission for individual equipment connections accessing this unit.

Remote Device List

Registering/deregistering of the displayed equipment can be performed when "Manual" in "Registration Type" is selected.

- You can register up to 16 devices.

► BD-Live Internet Access (⇒ 16)

You can restrict Internet access when BD-Live functions are used.

- If "Limit" is selected, Internet access is permitted only for BD-Live contents which have content owner certificates.

■ Legal Notices

Displays the terms of service for the cloud services.

Ratings

The following items use the same password.
Don't forget your password.

■ DVD-Video Ratings

Set a ratings level to limit DVD-Video play.

■ BD-Video Ratings

Set an age limit of BD-Video (including Ultra HD Blu-ray) play.

■ Network Service Lock

You can restrict the usage of Network Service.

System

■ Easy Settings

You can execute basic settings.

■ TV Settings

Press [OK] to show the following settings:

➤ TV System

Perform the setup so it matches the TV System of the connected TV.

➤ Screen Saver Function

This is to prevent image retention on the screen.

- When this is set to "On":
If a list of playback content is displayed and there is no operation for 5 minutes or more, the screen switches to HOME menu automatically.
- While playing and pausing, etc., this function is not available.

➤ On-Screen Messages

Choose whether to show status messages automatically.

➤ VIERA Link

Set to use "VIERA Link" function when connected via HDMI cable to a device that supports "VIERA Link".

- Select "Off" when you do not want to use "VIERA Link".

■ Quick Start

Speed of start-up from standby mode is increased.

- When set to "On", the internal control unit will be powered. The idle power consumption will increase so compared to when set to "Off".
- The cooling fan may rotate at a slow speed to prevent the internal temperature from rising.

■ Remote Control

Change the remote control code if other Panasonic products react to this remote control.

■ Firmware Update (⇒ 13)

Press [OK] to show the following settings:

➤ Automatic Update Check

When this equipment remains connected to the Internet, it will check for the latest firmware version when it is turned on and you can update it if necessary.

➤ Update Now

You can update the firmware manually if a firmware update is available.

■ System Information

Press [OK] to show the following settings:

➤ Software Licence

Information about the software used by this unit is displayed.

➤ Firmware Version Information

Display firmware version of this unit.

■ Default Settings

This returns all values in the Setup menu and the Option menu to the default settings, except for some settings of network, ratings, remote control code, etc.

Troubleshooting guide

Before requesting service, please perform the following checks.

If the problem remains unresolved, consult your dealer for instructions.

Do you have the latest firmware installed?

Panasonic is constantly improving the unit's firmware to ensure that our customers are enjoying the latest technology. (⇒ 13)

The following do not indicate a problem with this unit:

- Regular disc rotating sounds.
- Image disturbance during search.
- Image disturbance when replacing 3D discs.

■ Unit does not respond to remote control or unit's buttons.

Press and hold [⏻/I] on the main unit for 3 seconds.

- If still unable to turn the unit off, disconnect the AC mains lead, wait 1 minute, then reconnect the AC mains lead.

■ Cannot eject disc.

- ① While the unit is on
Press and hold [OK], the yellow button and the blue button on the remote control at the same time for more than 5 seconds.
– POWER LED starts to flash, and "00 RET" is displayed on the screen.
- ② Press [▶] (right) repeatedly on the remote control until "06 FTO" is displayed on the screen.
- ③ Press [OK].

General operation

To return to the factory default.

- Select "Yes" in "Default Settings" in the Setup menu. (⇒ 28)

To return all settings to the factory preset.

- Reset the unit as follows:
 - ① While the unit is on
Press and hold [OK], the yellow button and the blue button on the remote control at the same time for more than 5 seconds.
– POWER LED starts to flash, and "00 RET" is displayed on the screen.
 - ② Press [▶] (right) repeatedly on the remote control until "08 FIN" is displayed on the screen.
 - ③ Press and hold [OK] for more than 5 seconds.

This unit is turned off when the input for the TV is switched.

- This is a normal phenomenon when using VIERA Link. For details please read the operating instructions for the TV.

The remote control doesn't work properly.

- Change the batteries in the remote control. (⇒ 5)
- The remote control and this unit are using different codes.
Turn on this unit by using [⏻/I] on the main unit, and check "Remote Control □", which is displayed on the screen when you press a button on the remote control.
Press and hold [OK] and the displayed number ("□") for more than 5 seconds.

This unit is turned off automatically.

- To save on electricity, this unit is turned off automatically depending on the media if there is no button operation for about 20 minutes when not playing back (such as when paused or displaying the menu, displaying still pictures, etc.).

**You have forgotten your ratings password.
You want to cancel the ratings level.**

- The ratings level returns to the factory defaults.
- ① While the unit is on
Press and hold [OK], the yellow button and the blue button on the remote control at the same time for more than 5 seconds.
 - POWER LED starts to flash, and “00 RET” is displayed on the screen.
- ② Press [▶] (right) repeatedly on the remote control until “03 VL” is displayed on the screen.
- ③ Press [OK].

The TV screen turns black.

- In the following cases, HDMI authentication takes place and a black screen is displayed:
 - When “24p Output” is set to “Automatic”.
 - When the display is switched between 2D and 3D images.
 - When you quit the 4K playback by displaying another screen, including the HOME menu.

This unit does not recognize the USB connection correctly.

- Disconnect and re-connect the USB cable. If it still does not recognize the connection, turn this unit off and on again.
 - USB devices may not be recognized by this unit when connected using the following :
 - a USB hub
 - a USB extension cable
 - If you connect USB HDD to this unit, use the USB cable that is supplied with the HDD.
 - If the USB HDD is not recognized, the power to the USB HDD may not be supplied. Supply power from an external source.
-

Picture

Images from this unit do not appear on the TV screen, or they are distorted.

- An incorrect resolution is selected in “Video Format”. Reset the setting as follows:
 - The connected devices are changed. Reset the setting as follows:
 - ① While the unit is on
Press and hold [OK], the yellow button and the blue button on the remote control at the same time for more than 5 seconds.
 - POWER LED starts to flash.
 - ② Press [8] and the blue button on the remote control at the same time for more than 5 seconds.
Set the item again. (⇒ 24)
 - When Dolby Digital Plus, Dolby TrueHD, and DTS-HD® audio are not output properly, select “Yes” in “Default Settings” (⇒ 28) and make proper settings.
 - “4K(50p/60p) Output” will be set to “Off”.
Make the correct setting again. (⇒ 24)
 - PAL discs cannot be correctly viewed on an NTSC TV.
 - When “3D BD-Video Playback” in the Setup menu is set to “Automatic”, images may not be output depending on the connection method. After removing the disc from this unit, select “Set before play” in the Setup menu, and select “2D Playback” in the setup screen displayed when playing 3D discs. (⇒ 26)
 - When outputting in 4K, images may be distorted depending on the HDMI cable. Use an HDMI cable that supports 18 Gbps. (The supplied HDMI cable supports 18 Gbps.)
-

Video is not output in 4K or high-definition.

- Confirm that "Video Format" in the Setup menu is set properly. (⇒ 24)
- Confirm the HDMI cable, related connections and the compatibility of TV video input. To output images in 4K, connect the HDMI cable to a 4K compatible terminal of the connected device. (⇒ 10)
- To enjoy image in 4K (50p/60p), set "4K(50p/60p) Output" to "4K(50p/60p) 4:4:4" or "4K(50p/60p) 4:2:0". (⇒ 24)
- If "4K(50p/60p) Output" is set to "4K(50p/60p) 4:4:4", check to see if the connected HDMI cable supports 18 Gbps. (⇒ 10, 24) (The supplied HDMI cable supports 18 Gbps.)
- If 4K images are not output from the connected 4K-compatible TV, set "4K(50p/60p) Output" to "4K(50p/60p) 4:4:4" or "4K(50p/60p) 4:2:0". (⇒ 24)
- When the unit is connected to a TV that supports formats up to 4K(50p/60p) 4:2:0 or "4K(50p/60p) Output" is set to "4K(50p/60p) 4:2:0", material recorded in 4K(50p/60p) cannot be output in HDR. To play back material recorded in 24p, set "24p Output" to "Automatic". (⇒ 24)

Cannot output video in HDR quality even when connected to an HDR-compatible TV.

- When connected to a device or terminal that does not support HDR, this unit applies Dynamic Range Conversion to HDR signals to output them. In addition, depending on the disc, it may not be possible to output content in 2K resolution or perform playback correctly. (⇒ 16)
- Video may not be output from your TV in HDR quality, depending on the content. Set "HDR (High Dynamic Range) Output" and "HLG / PQ Conversion" to "Automatic". (⇒ 24)

3D video is not output.

- Connect to a 3D compatible device (e.g., TV and amplifier/receiver).
- When a non-3D compatible amplifier/receiver is connected between this unit and a TV, 3D video is not output. (⇒ 11)
- Confirm the settings on this unit and the TV for 3D. (⇒ 16)

3D video is not output correctly as 2D.

- Select "Set before play" in the Setup menu, and select "2D Playback" in the setup screen displayed when playing 3D discs. (⇒ 26, "3D BD-Video Playback")
- Discs that have recorded titles with Side by side (2 screen structure) and that can be enjoyed in 3D are played back in accordance with the settings of the TV.

No picture is output from Netflix.

- When the unit is connected to a TV that does not support HDCP2.2 via an amplifier or speaker, it may not be possible to view Netflix.*
If HDCP2.2 is not supported by your TV, try either of the following solutions:
 - Connect the unit and the TV directly. (⇒ 11)
 - Set "HDCP Output Setting" to "HDCP1.4 Limit". (⇒ 24)

* This limitation is due to a specification defined by Netflix, Inc.
Press [RETURN] if a black screen is displayed.

A black band is displayed around the edge of the screen.**The aspect ratio of the screen is abnormal.**

- Adjust the aspect setting on the TV.

There is a lot of image lag when playing video.

- Set "0" all items in the "Noise Reduction". (⇒ 22)

Audio

Cannot hear the desired audio.

- Check the connections and the “Digital Audio Output” settings. (⇒ 11, 25)

There is no sound coming out.

- Refer to “Connecting to an amplifier/receiver” (⇒ 11) to check the audio output settings suited to the connections of your device.

Playback

Disc cannot be played.

- The disc is dirty. (⇒ 5)
- The disc is not finalized. (⇒ 7)
- Depending on the Ultra HD Blu-ray disc, it may not be possible to perform playback unless this unit is connected to the Internet.

Still pictures (JPEG) do not play back normally.

- The images that were edited on the PC, such as Progressive JPEG, etc., may not be played back.

I can't play back BD-Live.

- Confirm that this unit is connected to the broadband Internet. (⇒ 12)
- Confirm the “BD-Live Internet Access” settings. (⇒ 27)
- Confirm a USB device is connected to the USB port. (⇒ 9)

Network

I can't connect to the network.

- Confirm the network connection and settings. (⇒ 12, 13, 27)
- Check the operating instructions for each device and connect accordingly.

Messages on the screen

Cannot read. Please check the disc.

- You inserted an incompatible disc.

Cannot play this file.

- You tried to play a non-compatible video.

No disc inserted.

- The disc may be upside down.

⊘ This operation cannot be performed now.

- Some operations are unsupported by the unit. (For example, reverse slow motion, etc.)

IP address is not set.

- The “IP Address” in “IP Address / DNS Settings” is “---. ---. ---. ---”. Set the “IP Address”, “Subnet Mask”, and “Gateway Address”. (Select the automatic address acquisition if necessary.)

POWER LED

When the POWER LED is flashing other than during power up or down of this unit, check the message on the TV screen. If a message is not displayed on the TV screen, determine the type of the error by checking the way the POWER LED is flashing.

Symbols indicate the following states:

- ◆ Flash
- No illumination
- Repetition

◆◆ —◆◆ —◆◆

(Flashes 6 times)

- The remote control and this unit are using different codes.
Turn on this unit by using [⏻/I] on the main unit, and check "Remote Control □" which is displayed on the screen when you press a button on the remote control.
Press and hold [OK] and the displayed number ("□") for at least 5 seconds.

◆◆◆◆ —◆◆◆◆ —.....

(Flashes 4 times)

- The unit fails to operate properly. Press [⏻/I] on the main unit for 3 seconds to switch the unit to standby, then switch back on.

◆◆◆◆◆◆◆.....

(Flashes)

- The copyright protected disc cannot be played back.
One of the devices connected to this unit (TV, amplifier, etc.) does not support copyright protection.
- Temperature of this unit is hot and the unit switches to standby for safety reasons.
Wait for about 30 minutes.
Install or place this unit with good ventilation.
- A firmware update is in progress.

◆◆◆ —◆◆◆ —.....

(Flashes 3 times)

- The disc in use cannot be played back since the copyright information is invalid.
- A firmware update using a USB device is complete.

Specifications

General

Signal system	PAL/NTSC
Operating temperature range	+5 °C to +35 °C
Operating humidity range	10 % to 80 % RH (no condensation)
HDMI OUT (19 pin type A)	1 pc. Output Audio format : PCM, Dolby Digital, Dolby Digital Plus, Dolby TrueHD, DTS®, DTS-HD High Resolution Audio™, DTS-HD Master Audio™
USB port (Type A)	Front : 1 pc., DC 5 V, Max. 500 mA [High-Speed USB (USB 2.0)]
LAN (Ethernet) Port	1 pc. 10BASE-T/100BASE-TX
LASER Specification	Class 1 LASER Product Wave length: 770-800 nm (CDs)/ 650-666 nm (DVDs)/ 400-410 nm (BDs) Laser power: No hazardous radiation is emitted with the safety protection
Power supply	AC 220 V to 240 V, 50/60 Hz
Power consumption	Approx. 21 W
Power consumption in standby mode	Approx. 0.3 W (Quick Start: Off)
Dimensions (W×H×D) Including the projecting parts	320 mm×45 mm×193 mm
Mass	Approx. 1.3 kg

File format

File format	Extension	Reference
MKV (Compression methods Video: H.264/HEVC Audio: AAC, PCM, Vorbis, FLAC)	“.MKV”, “.mkv”	<ul style="list-style-type: none"> Resolution up to 3840×2160 25p/30p, 4096×2160 24p. The video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions. Some MKV files may not be played back correctly, depending on the video resolution, frame rate condition, subtitle format and so on.
	Subtitles text file “.SRT”, “.srt”, “.SUB”, “.sub”, “.TXT”, “.txt”	
mp4 (Compression methods Video: H.264/HEVC Audio: AAC)	“.MP4”, “.mp4”, “.MOV”, “.mov”	<ul style="list-style-type: none"> Resolution up to 3840×2160 25p/30p, 4096×2160 24p. (except MPEG2) Some mp4/MPEG files may not be played back correctly, depending on the video resolution, frame rate condition and so on. MOTION JPEG is not supported. Depending on the audio compression method, only images may be played back and it may not be possible to output audio.
MPEG (TS/PS) (Compression methods Video: MPEG2 /H.264*/HEVC*1 Audio: AAC*1 /Dolby Digital /LPCM*2)	“.MPG”, “.mpg”, “.MPEG”, “.mpeg”, “.M2TS”, “.m2ts”, “.MTS”, “.mts”, “.TS”, “.ts”	<ul style="list-style-type: none"> MOTION JPEG and Progressive JPEG are not supported. You may not be able to play back the file if you have edited the folder structure or the file name on a PC or other device.
JPEG	“.JPG”, “.jpg”	<ul style="list-style-type: none"> MOTION JPEG and Progressive JPEG are not supported. You may not be able to play back the file if you have edited the folder structure or the file name on a PC or other device.
MPO	“.MPO”, “.mpo”	3D still picture
MP3	“.MP3”, “.mp3”	This unit supports ID3 tags, but only titles, artist names and album names can be displayed.
FLAC	“.FLAC”, “.flac”	This unit supports tags, but only titles, artist names and album names can be displayed. Maximum sampling rate: 192 kHz/24 bit
WAV	“.WAV”, “.wav”	Maximum sampling rate: 192 kHz/32 bit
AAC	“.M4A”, “.m4a”	Maximum sampling rate: 48 kHz/320 kbps
WMA	“.WMA”, “.wma”	This unit supports tags, but only titles, artist names and album names can be displayed. Maximum sampling rate: 48 kHz/385 kbps

File format	Extension	Reference
DSD (DFF, DSF)	“.DSF”, “.dsf”, “.DFF”, “.dff”	2.8 MHz (2 ch/5.1 ch), 5.6 MHz (2 ch only)
ALAC	“.M4A”, “.m4a”	96 kHz/32 bit (Max.7.1 ch), 176.4/192 kHz/32 bit (Max.5.1 ch)
AIFF	“.aif”, “.aiff”	Maximum sampling rate: 192 kHz/32 bit

¹ TS only

² PS only

- With certain recording states and folder structures, the play order may differ or playback may not be possible.
- A combined total of up to 10,000 files and folders can be displayed as playable data in each folder regardless of their format.
(Even when the picture playback menu is displayed, for example, if a folder in the menu contains playable videos and music files, they are also counted as playable data.)

Audio information

The audio output differs depending on the settings on the unit. (⇒ 25, “Digital Audio Output”)

- The number of channels listed is the maximum possible number of output channels when connected to amplifier/receiver compatible with the respective audio format.

	Terminal	“Digital Audio Output”	
		“Bitstream”	“PCM” ¹
Output channel	HDMI OUT	Outputs using original audio ²	BD-Video : 7.1ch PCM ^{2,3} DVD-Video : 5.1ch PCM

¹ The maximum possible number of Dolby sound is 2ch PCM.

² When “BD-Video Secondary Audio” is set to “On”, the audio will be output as Dolby Digital, DTS Digital Surround™ or 5.1ch PCM. However, when playing BD-Video without secondary audio or navigation sounds, the audio is output as the original format.

³ The audio output is amplified from 5.1ch or 6.1ch to 7.1ch depending on the DTS, Inc. specifications.

Supported format for Network Contents Playback

When this unit works as a Network Contents client, following contents are playable.

- File formats that are not supported by your Network Contents server* cannot be played.
- * DLNA compatible server, etc.

Video

Container	Video codec	Audio codec	Example of file extension
MKV	H.264 HEVC	AAC PCM Vorbis FLAC	.mkv
AVCHD	H.264	Dolby Digital	.mts
MP4	H.264 HEVC	AAC	.mp4, .mov
PS	MPEG2	Dolby Digital Linear PCM	.mpg, .mpeg
TS	MPEG2 H.264 HEVC	AAC Dolby Digital	.m2ts, .ts

Photo
